Experiences

Nanyang Technological University (NTU) Singapore | 2026.08 - present
Research Assistant | *School of Electrical and Electronic Engineering, College of Engineering*

- Under the supervision of Prof. Ziwei Wang, at Perception and Embodied Intelligence (PINE) Lab

Agency for Science, Technology and Research (A*STAR) Singapore | 2025.08 - 2026.06
Research Assistant | *Centre for Frontier AI Research (CFAR), Institute of High Performance Computing (IHPC)*

- Pioneered spatially-aware reinforcement learning adaptation for flow-based VLA models, preserving implicit spatial inductive bias through fused geometric prior and preventing degradation under distribution shifts.
- Designed geometry-aligned dense rewards and spatially-conditioned exploration, enabling stable RL fine-tuning, superior zero-shot spatial generalization, and robust transferable behaviors in complex manipulation scenes.

Baidu International Technology (Shenzhen) Co., Ltd. Shenzhen, China | 2024.12 - 2025.03
Research Intern | *Foundation Public Technology Group, International Technology R&D Department*

- Developed DiT-based framework for controllable, arbitrarily long video generation via key-frame conditioning.
- Improved the visual fidelity of rendered text in image generation by designing specialized attention mechanisms.
- Contributed to the **SynClub** AI chat app through assessment of frontier multimodal generative models and optimization of text-to-image/video modules, delivering improved performance and higher-quality outputs.
